

Financial Controls Manager

Sandoz A/S is for our Nordic Corporate Finance team looking for an independent Financial Controls Manager with drive and will to corporation and change. You will become part of a dynamic and fast moving team which is responsible for managing the accounting and financial reporting towards our international headquarter as well as our internal financial controls environment throughout the Nordic organisation. You will be reporting to our Head of Financial Reporting and Accounting, Nordic.

Your primary tasks and responsibilities will consist of:

- Responsible for the maintenance, coordination and further development of the internal financial controls and business processes
- Be responsible for various monthly reporting tasks to Sandoz Group as part of monthly close activities
- Ensuring quality and compliance to rules, regulations and guidelines within the finance area
- Lead, participate and support ad hoc projects within the Finance team

Your qualifications:

- You hold a degree in Finance, either BSc, MSc or equivalent
- You have experience in the area of Financial controls preferably in an international environment and also preferably experience with SOX
- You have solid IT skills, preferably with Microsoft Office. An advantage would also be experience with SAP.
- You are excellent in written and verbal english

Your personality:

- Your outlook on life is to see possibilities rather than restrictions
- You have a well developed analytical sence and the capability to understand and enhance complex business processes
- You are taking initiative and manage your assignments well
- You aspire to deliver quality in all that you do and feel responsible
- You work effectively and focused and can stay cool under pressure and keep the overview in busy periods
- You have a solution mindset and can work independently

We offer:

A challenging job in an international organisation where the pace is high. You will work both as a generalist as well as content expert with high degree of professional competence and responsibility. You will have lots of opportunities to use your competencies both independently as well within the team.

You will become part of a young, professional and dynamic organization where you will get the opportunity to shape the future and be challenged both professionally as personally.

We recognize and prioritize a healthy work life balance and know that this is vital to grow lasting relationships.

For more information please contact our Head of Financial reporting and accounting René Kristoffersen on telephone +4524246100.
